

## ***SURVEY REVIEW* CUMULATIVE INDEX**

**Volumes 1-35**

### **CORRESPONDENCE ‡**

- Another Mnemonic for, J. F. Jones, **21**, 437  
Computers of, W. E. Barron, **6**, 301  
Early Usage of; George Philip, **7**, 53  
Early Usage of, F. P. White, **7**, 53  
(*t - T*) Correction, The. L. P. Lee, **62**, 319  
50 Years Ago and Editorial of Vol. **29**, No. 230, **233**, 141  
About our Contributors. J. Loxton, **145**, 143  
Accelerations and Fluctuations of the Sun and Moon. J. K. Fotheringham, **8**, 120  
Accuracies of E.D.M. measurements. R. G. Bird, **181**, 342  
Accuracy of Circum-elongation Observations for Azimuth. A. F. Smith, **141**, 341  
Accuracy of E.D.M. J. C. de Munck, **184**, 95  
Accuracy of Topographical Maps, The. H. A. L. Shewell, **91**, 238  
*Adams, L. P.* Astronomical Position and Azimuth by horizontal directions. **151**, 55  
Adaptation of "Napier's Rule" for a Spherical Triangle in which One Side is 90°. S. N. Roy, **124**, 285  
Adjusting Calculations in Surveying. I. Hazay, **164**, 284  
Adjustment and the pseudoinverse. Station. T. Vincenty, **205**, 347  
Adjustment and Trilateration. Semi-Graphic, B. Chiat, **133**, 340  
Adjustment and Trilateration. Semi-Graphic, P. J. Taylor, **133**, 341  
Adjustment and Trilateration. Semi-Graphic, A. L. Allan, **133**, 338  
Adjustment and Weighting of Dissimilar Quantities. The. J. E. Lilly, **126**, 381  
Adjustment and Weighting of Dissimilar Quantities. A. Tarczy-Hornoch, **128**, 102  
Adjustment by Directions. Triangulation, G R. Dyus, **127**, 54.  
Adjustment of Traverses, Least Squares, J. G. W. L. **29**, 443  
Adjustment of a traverse network. H. Wolf, **188**, 262; **194**, 190  
Adjustment of a Trilateration Figure by Frame Structure Analogue. F. Halmos, **125**, 333  
Adjustment of Dissimilar Quantities. Least Squares, C. Conn, **131**, 246  
Adjustment of Dissimilar Quantities. Least Squares. H. Wolf and H. Biesheuvel, **138**, 188  
Adjustment of Linear Dimensions in a Geodetic Quadrilateral. The Selection of Pole and Condition Equation in the. G. J. Thornton-Smith, **132**, 294  
Adjustment on the HP9810. Traverse. J. R. Smith, **170**, 185  
Adjustment Triangulation, by Directions. J. M. Mann, **125**, 332  
Adjustment Trilateral Computation and. H. H. Brazier, **90**, 191  
Adjustment. Survey. J. E. Jackson, **203**, 248  
Adjustments of the Optical Plummet of the Wild T2. P. Wilson, **144**, 193; **146**, 192  
Adjustments of Triangulation, Least Squares. H. Biesheuvel, **86**, 383  
Adjustments of Triangulation, Least Squares. H. F. Rainsford, **86**, 381  
Adjustments, Survey, and Least Squares. H. F. Rainsford, **110**, 382  
Adjustments. A Basic Approach to. H. Klinkenberg, **139**, 245  
Adjustments. Preliminary. R. Stewart, **181**, 343  
African Place Names, The Spelling of. A. N. Tucker, **77**, 332  
African Place Names, The Spelling of. E. Pyke, **79**, 42  
African Place Names, The Spelling of. G. M. Brown, **79**, 43

African Place Names, The Spelling of. H. A. Stammers-Smith, **75**, 237  
 African Place Names, The Spelling of. J. Berry, **74**, 189  
 African Place Names, The Spelling of. J. W. Wright, **76**, 284  
 African Place Names, The Spelling of." Surveyor ", **76**, 283  
 Air Photographs, Point Identification on. J. A. Eden **84**, 286  
 Air Photographs, Point Identification on. G. J. F. Holden, **82**, 188  
 Air Photographs, Point Identification on. W. D. C. Wiggins, **84**, 287  
 Air Survey and Colonial Cadastral Mapping. N. Wolff **29**, 444  
 Air Survey Lenses, Distortion and Field Curvature in. W. Weinstein, **85**, 333  
 Air Survey Lenses, Distortion in, J. E. Odle, **87**, 46  
 Air Survey Lenses, Photogrammetric Requirements in the Performance of, A. M. Wassef, **82**, 191  
 Air Survey, Revision by. R. C. Kemp, **19**, 312  
 Air Survey, Revision by. Winterbotham, H. St J. L. **19**, 316  
 Air Survey Work, Use of Automatic Plotting Machines for. H. A. L. Shewell, **80**, 93  
 Air Survey Work, Use of Automatic Plotting Machines for. P. G. Mott, **78**, 379  
 Alexander Land, Antarctica, The Compilation of a Reconnaissance Map of, from Trimetrogon Air Photographs. P. G. Mott, **121**, 143  
*Allan, A. L.* Semi-Graphic Adjustment and Trilateration, **133**, 338  
*Allman, J. S.* Least Square adjustment -angles  $\nu$  directions, **156**, 295  
 Almanac, Star, for Land Surveyors. The. S. E. Evans, **107**, 238; **110**, 382  
 Almanac, Star, for Land Surveyors. The. D. H. Sadler, **108**, 287  
 Altimeter Heighting from Helicopters. J. A. Eden, **151**, 55  
 Altitude of Star, Approximate Azimuths by Rate of Change of. R. W. Pring, **84**, 287  
 Altitude of Star, Approximate Azimuths by Rate of Change of. W. W. Williams, **86**, 384  
 Altitudes, Circum-meridian, The Reduction of, to the Meridian. L. R. Lee, **81**, 143  
 Altitudes, Circum-meridian, The Reduction of, to the Meridian. K. M. Papworth, **80**, 95; **83**, 236  
 Altitudes, Circum-Meridian. G. J Thornton-Smith, **109**, 335  
 Analogue. Adjustment of a Trilateration Figure by Frame Structure, O. B. Sheynin, **127**, 55  
 Analogue. Frame Structure, Adjustment of a Trilateration Figure by. F. Halmos, **125**, 333  
 Aneroid Barometer, Notes on Levelling With the. W. G. G. Cooper, **4**, 189  
 Aneroid Barometer, Notes on Levelling With the. D. E. Smith, **4**, 188  
 Aneroid Readings, Reduction of. D. R. Crone, **105**, 141  
 Aneroid Readings, The Reduction of. C. A. Biddle, **116**, 291  
 Angle Measurement in Conditions of Extreme Shimmer. R. E. McLean, **145**, 143  
 Angles and Directions. F. Teixeira de Queiroz, **146**, 190  
 Angles in all Combinations, Measurement of. **6**, 299  
 Angles or Directions ? H. F. Rainsford, **146**, 191  
 Angles  $\nu$  Directions. Least square adjustment. J. S. Allman, **156**, 295  
 Angles versus Directions. H. F. Rainsford, **155**, 246  
 Angles versus Directions. P. F. Dale, **148**, 286  
 Angular measure, Unit of. R. G. Bird. **212**, 286  
 Anthology of Numerical Solutions of Simultaneous Linear Equations. G. H. Menzies. **149**, 335  
 Anthology of Numerical Solutions of Simultaneous Linear Equations. V. Ashkenazi, **149**, 334

Application of Tape and Disc Recording Machines to Field Astronomy. W. A. Stepec, **136**, 95

Approximate Azimuths by Rate of Change of Altitude of Star. R. W. Pring, **84**, 287

Approximate Azimuths by Rate of Change of Altitude of Star. W. W. Williams, **86**, 384

*Arden-Close, Sir C. F.* Nomenclature of Map Projections, **54**, 345

*Arden-Close, Sir C. F.* The Arc of the 30th Meridian in Africa, **49**, 141

*Arden-Close, Sir C. F.* Use of Clarke's Figures of the Earth in Africa and Elsewhere. **50**, 182

*Arden-Close, Sir C. F.* Maps of Palestine, **46**, 501

*Arden-Close, Sir C. F.* Surveying the Empire, **71**, 47

*Arden-Close, Sir C. F.* The Transverse Mercator Projection. **65**, 136

*Arden-Close, Sir C. F.* The Yard and the Metre. **55**, 36

*Arden-Close, Sir C. F.* The Ordnance Survey and the Departmental Committee. **59**, 196

Area. (A. V. Lawes), **35**, 304

Area. Machine Computation of (H. F. Rainsford), **32**, 113

*Arnott, D. T.* Ordnance Survey data., **185**, 137

*Ashkenazi, V.* Solution and Error analysis of large geodetic networks. **153**, 150

*Ashkenazi, V.* An Anthology of Numerical Solutions of Simultaneous Linear equations. **143**, 22

Assumption, The Radial Line. E. H. Thompson, **79**, 44

Assumption, The Radial Line. M. Hotine, **78**, 381; **81**, 142

Assumption, The Radial Line. D. R. Crone, **78**, 380

Assumption, The Radial Line. G. F. Nahas, **77**, 336

Astronomical Formulae, Simplification of Geodetic and. J. E. Jackson, **88**, 95

Astronomical notation. (H. C. Nightingale), **159**, 44

Astronomical Position and Azimuth by horizontal directions. L. P. Adams, **151**, 55

Astronomy Field, A System of Conventions for Use in. J. G. Freislich, **94**, 382

Astronomy Field, A System of Conventions for Use in. L. P. Lee, **92**, 284

Astronomy Field, A System of Conventions for Use in. S. G. Khoo; **92**, 284

Astronomy. Application of Tape and Disc Recording Machines to Field. W. A. Stepec, **136**, 95

Astronomy. Horizontal Angle Observations in. T. L. Thomas. **144**, 94

Astronomy. Horizontal Angles in. L. A. White, **148**, 282, 285

Astronomy. Horizontal Angles in. T. L. Thomas. **148**, 283

Automatic indexes. J. E. Jackson, **201**, 129

Automatic Plotting Machines for Air Survey Work, Use of. H. A. L. Shewell, **80**, 93

Automatic Plotting Machines, Use of for Air Survey Work. P. G. Mott, **78**, 379

Azimuth and Latitude, Determination of, from Observations of an Unknown Star. C. A. Biddle, **89**, 143

Azimuth and Latitude, Determination of, from Observations of an Unknown Star. S. K. Ghosh, **90**, 191; **94**, 382

Azimuth and Latitude, Determination of, from Observations of an Unknown Star. A. W. Miller, **91**, 237

Azimuth by horizontal directions. Astronomical Position and. L. P. Adams, **151**, 55

Azimuth by Observing Stars at Elongation. Criteria for the Determination of. A. F. M. Smith, **138**, 192

Azimuth Determination. R. W. Pring, **90**, 190

Azimuth Latitude and Time, Simultaneous Determination of, by Observations to a Pair of Stars. K. M. Papworth, **117**, 39

Azimuth Latitude and Time, Simultaneous Determination of, by Observations to a Pair of Stars. D. Gadd, **114**, 193  
 Azimuth Latitude and Time, Simultaneous Determination of, by Observations to a Pair of Stars. G. J. Thornton-Smith, **114**, 190  
 Azimuth Latitude and Time, Simultaneous Determination of, by Observations to Two Stars. J. C. Bhattacharji, **115**, 243  
 Azimuth Observations, Precise, Curvature Correction in. G. J. Thornton-Smith, **82**, 190  
 Azimuth Variation from observations of close stars. A. R. Robbins, **144**, 95  
 Azimuth, Criteria for the Determination of by Observing Stars at Elongation. Col. D. R. Crone, **123**, 239  
 Azimuths Approximate, by Rate of Change of Altitude of Star. W. W. Williams, **86**, 384  
 Azimuths, Approximate, by Rate of Change of Altitude of Star. R. W. Pring, **84**, 287  
 Azimuths, Tabular (O. H. Chilton and M. R. C. Nanson ), **40**, 102  
 Back numbers of the *Survey Review*. C. G. C. Martin, **190**, 381  
 Back numbers of the *Survey Review*. C. Tomlinson, **188**, 285  
 Back to Basics. **265**, 204  
 Back to Basics. P. Davies **271**, 70  
*Bagchi, A. K.* Integrated surveys, **188**, 286  
*Bamatan, E.* An unconventional application of Chain Survey Methods to underwater Detail Survey, **142**, 392  
 Baromec surveying barometer. D. E. Luckin, **202**, 194  
 Barometer. Baromec surveying. D. E. Luckin, **202**, 194  
*Barrett, M. M.* Cadastral boundary disputes **170**, 183 .  
*Barrett, M. M.* Cadastral surveys within the Commonwealth, **189**, 331  
*Barron, W. E.* Computers of , **6**, 301  
 Base Measurement at Night. W. P. Smith, **76**, 282  
 Base Measurement in Ethiopia, A Tellurometer. J. W. Wright, **111**, 47  
 Basic Approach to Adjustments. H. Klinkenberg, **139**, 245  
 Beiträge zur Lotabweichungsausgleichung und Geoidbestimmung. (J de Graaff.-Hunter), **76**, 279  
*Bell, J. F.* Correction to Star Almanac for Land Surveyors, 1973, **168**, 79  
*Bennett, M.* Theodolite observations to corner cube reflectors illuminated by a helio, **181**, 342  
*Bennett, S. J.* Laser interferometer, **174**, 381  
*Ben-Yosef, Y.* The Evans Resection Method, **97**, 143  
*Ben-Yosef, Y.* Trilateration Computation, **100**, 286  
*Berlin, I.* The Adjustment of the Optical Plummet of the Wild T2, **144**, 93  
*Berry, J.* The Spelling of African Place Names, **74**, 189  
*Bhattacharji, J. C.* Simultaneous Determination of Latitude, Azimuth and Time by Observations to two stars, **115**, 243  
*Biddle, C. A.* Determination of Azimuth and Latitude from Observations of an Unknown Star, **89**, 143  
*Biddle, C. A.* The Reduction of Aneroid Readings, **116**, 29  
*Biesheuvel, H.* General correspondence, **170**, 186  
*Biesheuvel, H.* Least Squares Adjustments of Triangulation, **86**, 383  
*Biesheuvel, H. and Wolf, H.* The Least Squares Adjustment of Dissimilar Quantities, **138**, 188  
*Bird, R. G.* Accuracies of EDM measurements, **181**, 342  
*Bird, R. G.* Photographs of theodolite circles, **176**, 96  
*Bird, R. G.* The Tyranny of Survey Regulations, **123**, 237

*Bird, R. G.* Meeting of Teachers of Surveying, December 1965, **142**, 392  
*Bird, R. G.* Unit of angular measure. **212**, 286  
*Birkin, F. J.* Note on the Lambert and Polar Stereographic Projections, **102**, 386  
*Black, A. N.* Effect of Tilt on Position Lines, **105**, 139  
*Blanchard, W. F.* Doppler satellite techniques, **189**, 329  
 Bomford Memorial Symposium. The, **264**, 132  
*Bomford, G.* Corrections to Bomford's " Geodesy ", **92**, 288  
*Bomford, A. G.* History of the Retriangulation of Great Britain, **154**, 199  
*Bomford, A. G.* Tellurometer Distances-Slope Correction, **126**, 382  
 Bomford's " Geodesy," Corrections to. G. Bomford, **92**, 288  
 Borneo, British North, A Letter from. (T. J. H. Speedy), **44**, 362  
 Boundaries. Doppler. N. A. G. Leppard, **192**, 94  
 Boundary disputes. Cadastral. H. R. Wason, **175**, 44  
 Boundary disputes. Cadastral. P. C. Sherwood, **175**, 46  
 Boundary features. R. A. Goonewardene, **175**, 42  
*Bowring, B. R.* Distance and the spheroid, **164**, 281  
*Bowring, B. R.* Quadrature of the circle. **230**, 402  
*Boyland, J.* Surveying Prose, Poetry, etc. **250**, 251  
*Brazier, H. H.* The Length of a Meridian Arc, **71**, 46  
*Brazier, H. H.* Trilateral Computation and Adjustment, **90**, 191  
 British Cartographic Society /Science Museum exhibition. I. D. Kember, **193**, 142  
 British Isles. The Geoid of the. **257**, 201; **260**, 426  
 British North Borneo, A Letter from. (T. J. H. Speedy), **44**, 362  
*Brown, G. M.* The Spelling of African Place Names, **79**, 43  
*Burrard, Sir S. G.* The Name Karakoram and Reasons for Recommending a Change in its Spelling, **16**, 115  
 Burrard. The Late Sir Sidney. Sir G. P. Lenox-Conyngham. **52**, 263  
*Burrows, N. E. A.* Some Difficulties Experienced in Using Multiplex Plotting Equipment, **83**, 237  
*Butler, R. J.* Commonwealth Survey Officers' Conference, August, 1959, **118**, 388  
 Cadastral boundary disputes. B. M. White, **170**, 181  
 Cadastral boundary disputes. K. W. Simpson, **170**, 180  
 Cadastral boundary disputes. P. F. Dale, **170**, 181  
 Cadastral boundary disputes. A. J. van der Weele, **171**, 234  
 Cadastral boundary disputes. H. R. Wason, **175**, 44  
 Cadastral boundary disputes. M. M. Barrett, **170**, 183  
 Cadastral boundary disputes. P. C. Sherwood, **175**, 46  
 Cadastral Map, The, W. T. Neill, **15**, 52  
 Cadastral Map, The, X., **13**, 433  
 Cadastral research project, P. F. Dale, **168**, 79  
 Cadastral research project, J. A. McRae, **175**, 43  
 Cadastral surveys within the Commonwealth. M. M. Barrett, **189**, 331  
 Cadastral surveys within the Commonwealth. P. F. Dale, **189**, 333  
 Cadastral surveys within the Commonwealth. H. R. Wason, **193**, 143  
 Calibration. A simplified approach to accurate EDM instrument. J. M. Rieger. **209**, 140  
 Cartesian co-ordinates. Spheroidal and, T. O. Crompton, **196**, 286  
 Cartesian co-ordinates. Spheroidal and, L. A. White, **196**, 285  
 Cartographic Society /Science Museum exhibition. British. S. T. Shreeve, **190**, 381  
 Chain Survey Methods to underwater Detail Survey. An unconventional application of. E. Barnatan, **142**, 392  
 Charges for Ordnance Survey data. G. Petrie, **185**, 136  
*Chiat, B.* Grid co-ordinates in the United Kingdom, **169**, 135

*Chilton, O. H.* Tabular Azimuths, **40**, 102  
*Churchill, J. H.* Colour Filters and Surveying Instruments, **17**, 187  
*Churchill, J. H.* The Application of a Red Filter to Surveying Instruments, **15**, 55  
 Circle. Quadrature of the. **231**, 43  
 Circle. Quadrature of the. A. F. Porter. **221**, 372  
 Circum-elongation Observations for Azimuth. The Accuracy of. A. F. Smith, **141**, 341  
 Circum-meridian Altitudes, The Reduction of, to the meridian. L. P. Lee **81**, 143  
 Circum-meridian Altitudes, The Reduction of, to the Meridian. K. M. Papworth, **80**, 95; **83**, 236  
 Circum-meridian Altitudes. G. J. Thornton-Smith, **109**, 335  
*Clark, J. S. and Johnson, L. O. C.* Temperature Stresses in Invar Tapes Wound on Metal Drums, **80**, 92  
 Clarke's Figure of the Earth and the Length of the Metre. H. S. L. Winterbotham, **50**, 183  
 Clarke's Figures of the Earth in Africa, and Elsewhere. Sir C.F. Arden-Close, **50**, 182  
*Clendinning, J.* Colour Filters and Surveying Instruments, **16**, 113  
*Clendinning, J.* Signal Lamps. **30**, 502  
*Clifford, E. H. M.* Four-screw Levelling Device, **15**, 55  
 Closing. Nightmares before. K. Pawson, **174**, 382  
*Cole, J. H.* Geodesy in Egypt, **61**, 275  
 Colours Question, G. W. R. Jackson **15**, 53  
 Colours Question, A. J. Morley, **15**, 53; **18**, 251  
 Colours Question, G. S. C. Cooke, **15**, 52  
 Colours Question, The : T. H. Corfield **19**, 310  
*Colvocoresses, A. P.* Projection zones, **174**, 381  
 Comment on Circle Fitting in Three Dimensions. **263**, 65  
 Comment on Transverse Mercator Equations. **237**, 358  
 Commonwealth Survey Officers' Conference, August, 1959. R. J. Butler, **118**, 388  
 Commonwealth Surveyors. Conference of. S. T. Rabismus. **210**, 189  
 Commonwealth. Cadastral surveys within the. M. M. Barrett, **189**, 331  
 Commonwealth. Cadastral surveys within the. P. F. Dale, **189**, 333  
 Commonwealth. Cadastral surveys within the. H. R. Wason, **193**, 143  
 Compilation of a Reconnaissance Map of Alexander Land, Antarctica, from Trimetrogon Air Photographs, The. P. G. Mott, **121**, 143  
 Computation and Adjustment, Trilateral. H. H. Brazier, **90**, 191  
 Computers: Resection. Desk top. T. Vincenty, **170**, 164  
 Condition Equation in the Adjustment of Linear Dimensions in a Geodetic Quadrilateral, The Selection of Pole and. G. J. Thornton-Smith, **132**, 294, **129**, 149  
 Conference Commonwealth Survey Officers', August, 1959. R. J. Butler, **118**, 388  
 Conference of Commonwealth Surveyors. S. T. Rabismus. **210**, 189  
*Conn, C.* Least Squares Adjustment of Dissimilar Quantities, **131**, 246  
 Construction for a Regular Heptagon. B. R. Bowring. **249**, 182  
 Construction for a Regular Heptagon. T. O. Crompton. **248**, 122  
 Consulting land surveyors. P. J. Taylor, **168**, 79  
 Control data. Ordnance Survey. P. M. Gibbs, **189**, 335  
 Conventions for Use in Field Astronomy, A System of. J. G. Freislich, **94**, 382  
 Conventions for Use in Field Astronomy, A System of. L. P. Lee, **92**, 284  
 Conventions for Use in Field Astronomy, A System of. S. G. Khoo, **92**, 284  
 Conversion Factors (J. E. Sears), **43**, 316  
*Cooke, G. S. C.* The Colours Question, **15**, 52  
*Cooper, W. G. G.* Notes on Levelling with the Aneroid Barometer **4**, 189

Co-ordinate geometry nomenclature. Inconsistencies of mathematical and survey. E. F. Lucas, **175**, 39

Co-ordinates. Spheroidal and Cartesian. L. A. White, **196**, 285

Co-ordinates. Spheroidal and Cartesian. T. O. Crompton, **196**, 286

*Corfield, T. H.* Subdivision of a Triangle, **11**, 308

*Corfield, T. H.* The Colours Question, **19**, 310

Correction to Star Almanac for Land Surveyors, 1973. J. F. Bell, **168**, 79

Correction, Curvature, in Precise Azimuth Observations. G. J. Thornton-Smith, **82**, 190

Correction, The ( $t-T$ ). L. P. Lee, **62**, 319

Correction, The ( $t-T$ ). H. F. Rainsford, **66**, 183

Corrections to " The Recomputation of the Uganda Main Triangulation ". H. F. Rainsford, **99**, 237

Correlated Observations. H. F. Rainsford, **154**, 198

Correlated Observations. T. Vincenty, **156**, 295

*Correspondent.* Nomenclature of Map Projections, **60**, 238

Costs of Topography. H. P. Rowe **29**, 443

Criteria for the Determination of Azimuth by Observing Stars at Elongation. D. R. Crone, **123**, 239

Criteria for the Determination of Azimuth by Observing Stars at Elongation. A. F. M. Smith, **138**, 192

*Crompton, T. O.* Construction for a Regular Heptagon. **248**, 122

*Crompton, T. O.* Quadrature of the circle. **230**, 403

*Crompton, T. O.* Spheroidal and cartesian coordinates, **196**, 286

*Crone, D. R.* Criteria for the Determination of Azimuth by Observing stars at Elongation, **123**, 239

*Crone, D. R.* Effect of Tilt on Position Lines, **105**, 141

*Crone, D. R.* The Radial Line Assumption, **78**, 380

*Crone, D. R.* The Weighting of Differences of Trigonometrical Heights, **134**, 387

*Cross, P. A.* *A priori* and *a posteriori* analysis, or game and guess, **204**, 303

Curvature Correction in Precise Azimuth Observations. G. J. Thornton-Smith, **82**, 190

*Dale, P. F.* Cadastral surveys within the Commonwealth, **189**, 333

*Dale, P. F.* Photomaps, **160**, 96

*Dale, P. F.* Point X, (cartoons), **176**, 98

*Dale, P. F.* Angles versus Directions, **148**, 286

*Dale, P. F.* Cadastral boundary disputes, **170**, 181

*Dale, P. F.* Cadastral research project, **168**, 79

*Dale, P. F.* Rope, pig and compass traverse, **170**, 187

*Dale, P. F.* Survey integration, **173**, 324

*Darwin, E. R. H.* Three v. Four Foot-screws, **17**, 88
