

PAPERS BY G. T. McCaw (G. T. M)

The first Editor did not index his own writings under author but luckily there is a paper produced after his death (Vol. VIII, No. 55, pages 28-29) where those pieces known to have been by him are listed. That list is reproduced below.

African Foot, The Story of an: The Two Metres, **32**, 96
Altitude for Time, Notes on the Observation of, **11**, 294
Aneroid Tables, New, **16**, 85
Anglo-Ethiopian (Somaliland) Boundary Commission, 1932-5, **25**, 160; **26**, 225
Areas by Equidistant Offsets, **9**, 168
Attraction of the "Compensation" on the Pratt Hypothesis, **24**, 85
Attraction of the "Compensation": A Note **25**, 159
Azimuth, Influence of Geoidal Tilt on, **16**, 105
Azimuth and Time, Corrected, Two Stars in the same Vertical Plane, **39**, 41
Bearing, Correction to, for Height of Signal, **48**, 57
Boundaries, Oblique, **4**, 168
Bowditch Traverse Adjustment and a Modification, **29**, 417; **30**, 482
Bowditch Traverse Adjustment and a Modification, Notes, **31**, 36
Bowditch, Critical Support for, **38**, 497
Bubble, Run of the, **46**, 491
Cadastral Traversing, Routine, **36**, 368
Calendar, Reform of the, **3**, 115
Countersection, A Case of, **42**, 218
Countersection and Resection, Some Problems of, **43**, 297, **44**, 340; **45**, 412
Crustal Equilibrium, **23**, 20
Curve of Transition, A, **37**, 439
Deflection Prism, The, **32**, 105
Distances and Refraction on or near the Apparent Horizon, **24**, 70
Empire, A Map of the, **41**, 160
Expansion of Paper as Affecting Area, **21**, 427
Expansion of Paper as Affecting Bearing, **22**, 479
Foreign Measures and their English Values, Note on, **8**, 122
Fortheringham, Dr. J. K., Obituary Notice of, **25**, 191
Height of Signal, Correction to Bearing for, **48**, 57
Influence of Geoidal Tilt on Azimuth. **16**, 105
Interpolation by Machine, **17**, 162
Intervisibility Features, **21**, 428
Latitude and the Solstitial Day, **43**, 286
Length and Area, Units of, **41**, 85; **44**, 339
Length, Standards of in Question, **6**, 277
Linear Units, Old and New, **34**, 236
Logarithms, Tables of Addition and Subtraction, by B. Cohn (Review), **33**, 176
Long Lines on the Earth, **6**, 259, **9**, 156
Long Lines on the Earth: The Direct Problem, **12**, 346; **14**, 505
Mercator Projection, The, and the Rhumb Line, **19**, 289
Mercator Projection, The Transverse, **27**, 275
Mercator Projection, The Transverse, A Critical Examination, **35**, 285
Morris, Sir W. G. Obituary Notice of, **16**, 127
Pratt Hypothesis, Attraction of the "Compensation" on the, **24**, 85
Resection, Two Problems of, **23**, 49
Resection, Two Problems of, Further Note, **25**, 156
Resection, Triple, An Example, **42**, 216

Reynolds, John H. Obituary Notice of (with O. J. R. H.) **24**, 127
Routine Cadastral Traversing, **36**, 368
Run of the Bubble, **46**, 491
Solstitial Day, Latitude and the, **43**, 286
Spherical Earth. A Tangent solution of Triangles on a, **20**, 358
Spherical Excess, **11**, 291
Sun Observations and the 1931 Nautical Almanac (Editorial Note) **5**, 237
Survey Apparatus and Invention, Notes on, **17**, 169
Terrestrial Superficies, **45**, 408
Theodolite, The Levelling of a, **13**, 410
Traverse. A Chance Correction of a, **23**, 41
Trigonometrical Upset. A, **3**, 127
Units, Linear, Old and New, **34**, 236
Units of Length and Area, **40**, 85; **44**, 339
